

Public Membership Program

Listed below are two new ways for IWC state and provincial members to become engaged in our continued success and receive financial incentives while helping IWC to grow. As with any non-profit organization, public memberships are a must. If each of our agency members help raise our “public” membership levels, IWC will continue to grow exponentially. This new program will enable our agency grant program funding to grow and therefore offer wildlife decoy and Wall of Shame trailer grants to more than just a few states or provinces per year. To review our public membership levels, visit: www.wildlifecrimestoppers.org.

1. IWC will waive the annual agency membership dues (\$300) for any state or provincial member who raises \$300 or more of public memberships during our fiscal year from July 2020 thru June 2021 and so on. The waiver will be applied during the first of July 2021.
2. In addition to a waiver of annual dues, the state or provincial agency that raises the most public memberships will have their conference dues waived.

There isn't an application for this program. The IWC Executive Assistant will maintain records of all public memberships by state as they are received.
